Please complete and return the Project Submission Form by April 23, 2018.

HELPFUL INFORMATION FOR STUDENTS:

- Please return your submission form (last page of packet) to your teacher by April 23, 2018.
- You are responsible for doing your own work. You may get assistance from adults, but they should not build, research or complete your project for you. Projects must clearly represent your work.
- It is suggested that a 36" x 48" display board be used to display the steps followed throughout your investigation. However, any creative method can be applied to deliver the findings of your investigation (website, podcast, video). Remember: The steps of the Scientific Method/Design Process should be clearly explained and posted.
- Projects submission deadline: Monday, June 4, 2018

PROJECT SUBMISSION FORM

Complete all information and return this form to your teacher by Monday, April 23rd. These forms are very important as they assist in securing a precise count of students participating in the Science Fair. Titles cannot be changed once this form is submitted. All titles must be posed in the form of a question.

Classroom Teacher_____

Student Name_____

Project Title / Question

Provide a brief description of the investigation.
